

TIME TRAVEL

WHAT DOES IT
NEED TO DO ?

ADJUST TIME

* FORWARDS

* BACKWARDS

* RESET (to "Now")

ADJUST DATE

* ~~FORWARDS~~

* ~~BACKWARDS~~

* RESET (TO "TODAY")

SHOW / HIDE CONTROLS

* SHOW

* HIDE

TIME TRAVEL

WHAT DOES IT
NEED TO SHOW
OR
COMMUNICATE ?

SHOW

- * CURRENTLY SELECTED TIME
- * CURRENTLY SELECTED DATE
- * IF "TT" IS ACTIVE
(i.e. is date/time != "NOW")
 - * IN CONTACT INFO VIEWS AS WELL AS LISTS.
- * SHIFTED TIME / DATE
(i.e. effect on contacts)

QUESTIONS

I'M THINKING THAT THE CONTEXT FOR TT SHOULD BE THE SELECTED CONTACT - IS THIS HOW YOU SAW IT WORKING, DAVID?

PERHAPS YOU SEE THE LIST ITSELF PROVIDING THE ONLY CONTEXT NECESSARY?

I LIKE THE IDEA OF SHOWING CONTEXT i.e. CURRENT TIME IN THE T.T. CONTROL ITSELF...
